Firelight Owners,

We are sharing our latest roofing update. The architect was onsite this week to review the roofs, and they have been approved.

The gutter crews will be completing installation next, followed by insulation as the final phase of the project. We will be reaching out soon to schedule insulation installation dates.

This work will require access to units, including the master bedroom and attic hatch areas. Please also note that front doors may need to remain ajar during installation. For this reason, we ask that all pets are secured during the scheduled work.

We appreciate your cooperation as we move through these final steps.

Thank you,
